SUMMARY

Enthusiastic software engineering student passionate about coding, the metaverse, and innovative software solutions.

EDUCATION

BSc in Software Engineering, Al Ain University, *Abu Dhabi Campus*   Expected 2027
Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Web Development, Artificial Intelligence & UI/UX Design and Development

Introduction to Computer Science Course, Harvard University   2024
Relevant Skills: Algorithms/Data Structures, Python, SQL, HTML, CSS, Bootstrap, JavaScript

Grade 12 - Commerce with Information Practices, Abu Dhabi Indian School   2008 - 2023

SKILLS

Programming Languages	Python, Java
Web Development	HTML, CSS, Bootstrap
Data Management	SQL, MySQL
Software Development	Agile, Scrum, Version Control (Git/GitHub)
Graphic	UI/UX Design, Adobe Photoshop, Adobe Illustrator, Figma, Blender
Game Development	Unity, Unreal Engine, Roblox Studio, C sharp, C++
Tools	Digital Marketing, Motion Graphics, Wireframing, Prototyping
Speed Typing	110 WPM with 99% accuracy

EXPERIENCE

Graphics Designer Internship   Oct 2024 – Jan 2025
Pawar Technology Services   *Remote*

- Created UI/UX designs for websites and mobile applications, ensuring intuitive and visually appealing layouts.
- Developed brand-aligned designs to enhance user engagement and brand identity.

Guest Services Representative   Nov 2024 – Dec 2024
Formula 1   *Abu Dhabi, UAE*

- Led the PSA 10 team during the Formula 1 event at Yas Marina Circuit, ensuring exceptional guest experiences.
- Managed inquiries and provided on-ground support, achieving high customer satisfaction.

Game Developer   Oct 2024 - Seasonal
Game Jams - AD Gaming & Endless Studios   *UAE*

- Developed 11+ games, learning new engines and contributing to all phases of game creation.
- Won Best Overall Game for outstanding innovation and collaboration.

Community Police   Dec 2023 – Seasonal
Abu Dhabi Police   *Abu Dhabi, UAE*

- Assisted in community support programs and public safety initiatives across Abu Dhabi and Al Ain.

LANGUAGES

- English, Hindi, Urdu, Arabic

PROFESSIONAL DEVELOPMENT

CS50x Cyber Security Course Completion
Harvard University, Cambridge, Massachusetts

- Completed the "CS50x Cyber Security" course in 2024, diving into key concepts and challenges, culminating in a final project. Despite a passion for cyber security, the user is exploring other paths while appreciating the knowledge and experience gained.

One Million Prompters Course Completion
Dubai Center AI & Dubai Future Foundation

- Successfully completed the "One Million Prompters" program, enhancing skills in AI, prompt engineering, and generative AI.

Apple Search Ads Certification
Apple

- Achieved Apple Search Ads Certification, demonstrating expertise in App Store advertising and digital marketing strategies.
- Gained insights into optimizing ad campaigns to drive app growth and maximize visibility.

Huawei HCIA-AI V3.5 Course Completion
Huawei

- Successfully completed the HCIA-AI V3.5 course and earned a certificate, deepening knowledge in AI and enhancing technical skills.

Huawei HCIA-Datacom V1.0 Course Completion
Huawei

- Completed the Huawei HCIA-Datacom V1.0 course, mastering key networking topics including
- IP Routing, OSPF, and VLAN Configuration
- Ethernet Switching, STP, and Inter-VLAN Communication
- WLAN Technologies and Network Address Translation (NAT)
- WAN Technologies, SDN, NFV, and Network Management

AWARDS AND ACHIEVEMENTS

Best Overall Game Developed
Endless Studios

- Won the "Best Overall Game" award at the GameJam hosted by Endless Studios in October 2024, recognizing exceptional creativity and design.

Community Policing Contribution
Abu Dhabi Police

- Received an award from Abu Dhabi Police for significant contributions to community policing and volunteering efforts to maintain peace and public safety.

Recognition from Ministry of Education – UAE
University of Sharjah

- Honored by the MoE – UAE for serving as a Judge in the National Artificial Intelligence Championship, witnessing innovations and contributing to shaping the future of AI.

Best Position Paper
ADISMUN

- Awarded "Best Position Paper" in the UNSC Committee at ADISMUN 2022, contributing to the success of the conference with in-depth analysis and research.

Selected in "Arduino and Software-based Solutions for Healthcare Innovation" Competition
Al Ain University

- Presented a Virtual Health Chatbot at the "Arduino and Software-based Solutions for Healthcare Innovation" competition, designed to assist patients with health queries, facilitate virtual consultations, and improve healthcare accessibility for remote communities.
- Had the opportunity to showcase the AI Healthbot project to Prof. Ghaleb El Refae, President of Al Ain University, and received valuable insights.

Showcased at the "Innovative Projects" Exhibition
Al Ain University

- Presented the StudyBud app, an AI-powered study planner that helps students optimize schedules and boost productivity.
- Had the chance to pitch StudyBud to industry leaders and academic experts like His Excellency Yasser Algergawi, Dr. Noor Aldeen Atatreh, Prof. Ghaleb Awad El Refae, and Omar Al Ghardaqa, gaining valuable feedback for future development.
